

# SKIN EXPANDERS

SEBBIN PARIS  
ESTHETIQUE & RECONSTRUCTION

Recreating harmonious bodies for a new vision of rebirth.

For almost 30 years, Laboratoires Sebbin has designed and manufactured innovating solutions in the field of aesthetic and reconstructive surgery. In order to answer the specific needs of surgeons and their practice, we now offer the most complete line of skin expanders.

## The benefits

### EASY TO ADAPT

For most surgical problems:

- a great many shapes and volumes

### IMMEDIATELY AVAILABLE IN STOCK

- expanders with or without reinforcement
- smooth flexible envelope: for greater expansion capacity
- delivered with a site among 3 sizes : small, medium, large

### A CUSTOM-MADE ANSWER

Expanders for a specific request:

- with or without reinforcement
- choice of position of the tube other than that predefined in the line: on the right, on the left, on the side or in the middle
- connected at a distance other than that predefined with the chosen site size

### MAXIMUM RELIABILITY

100% of the expanders are controlled in terms of:

- tightness
- thickness
- inflation

100% of the injection sites are controlled in terms of tightness.

## CRESCENT SHAPE

Designation and reference				Volume (ml)	Base (mm)	Large width (mm)	Width at the centre (mm)	Projection (mm)
With reinforcement site on right	With reinforcement site on left	Without reinforcement medium site connected on the right at 10cm	Without reinforcement medium site connected on the left at 10cm

## ROUND SHAPE

\* only on request

Our single-use sterile skin expanders are sold by unit. The dimensions of our expanders may present slight variations with respect to the dimensions indicated.

# Our commitments

## CONTINUITY

Production know-how mastered for almost 30 years.

## RELIABILITY

Biological and mechanical evaluation of end products.  
Visual controls on 100% of implants at each step of the manufacturing process.

## TRACKING

Each implant is identified by a unique serial number allowing tracking from the raw materials used to its implantation.

## PEACE OF MIND

Highly qualified staff working in clean room.

This document is dedicated to health care professionals. According to the Medical Device Directive 93/42/EEC, the skin expanders and the sites of injection are Class IIb medical devices manufactured by Groupe SEBBIN and are intended to be used in the context of a plastic, reconstructive and cosmetic surgery. These devices are CE marked by the notified body mdc medical device certification GmbH number 0483. Please read carefully the instructions for use before using.
